MYERS' PSYCHOLOGY

FOR THE AP® COURSE, **UPDATED THIRD EDITION**

Dr. David Myers and Dr. Nathan DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories. Together, these authors produce a unified voice that will teach, illuminate, and inspire your AP® Psychology students. This updated edition now follows the order of the new CED so you can easily incorporate the College Board's Personal Progress checks and dashboard.

KEY FEATURES

AP® ORGANIZATION AND EXAM PREP

Myers' Psychology for the AP® Course, UPDATED Third Edition is organized to follow the new 2019 AP® CED. This edition includes:

- **AP® Exam Tips** found in the margins of the text
- **End-of-Module questions** in AP®-style
- **End-of-Part/Unit questions** in AP®-style
- A **complete AP® Practice Exam** at the end of the text

FLEXIBLE MODULAR APPROACH

This text is structured into modules, which are shorter than chapters and better sustain student understanding and interest. The modular format also provides more flexibility and easier pacing for you.

SUPERIOR AP® RESOURCES

Updated to align to the new framework and new student edition.

UPDATED! A **Teacher's Edition** from former Chief Reader Liz Hammer offers extensive advice, tips, and tools for teaching each unit and module.

UPDATED! The **Teacher's Resource Flash Drive** includes an array of resources to help you prepare for your class, including PD videos, discussion starter questions, worksheets, teacher demonstrations, lecture slides, and much more.

UPDATED! **ExamView® Assessment Suite** contains more than 4,000 multiple choice, short answer, and AP®-style free response questions.

UPDATED! **Strive for a 5: Preparing for the AP® Psychology Exam** is a complete study guide throughout the year ending with an AP® prep guide containing two complete practice exams.

AVAILABLE WITH

LaunchPad for *Myers' Psychology for the AP® Course*, UPDATED Third Edition is an interactive e-book and resource management platform that provides students with a comprehensive learning experience. Integrated *LearningCurve* adaptive quizzing offers individualized question sets and feedback for each student based on their correct or incorrect responses, making it easy for teachers to see where students are struggling.
